GitHub: https://github.com/jiyab18 Mobile: +91-8307174820

SKILLS

Programming Languages: C++, JavaScript, Python, Java
Web Technologies: HTML, CSS, Tailwind CSS, Bootstrap
Frameworks & Tools: React.js, Node.js, Git, GitHub, REST APIs, Postman
Database: MySQL, SQL
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management

PROJECTS

SmartHealth – Secure Health Records Portal / GitHub December 2025

- Developed a secure full-stack healthcare platform to enable users to upload, manage, and share medical records with efficient access control.
- Implemented authentication, secure data workflows, responsive UI, and RESTful APIs using Next.js, React, Node.js, TypeScript, and MySQL, with modular backend architecture for scalability.
- Improved record retrieval speed **~25–30%**, reduced unauthorized access risks **~40%**, enhanced system reliability, and supported concurrent users with maintainable and scalable performance.
- Tech: Next.js, TypeScript, React, Node.js, REST APIs, MySQL

SnapSpace – Online Photo Booth / GitHub October 2025

- Built an interactive web-based photo booth allowing users to capture live webcam images, apply real-time filters, and download processed photos with smooth, low-latency performance.
- Implemented responsive UI and real-time image processing using React.js, Tailwind CSS, HTML5 Canvas, JavaScript, and WebRTC, focusing on seamless user interactions across devices.
- Optimized React components and state management to reduce redundant re-renders **~35–40%**, improving UI responsiveness, load efficiency, and overall user experience **~30%.**
- Tech: React.js, Tailwind CSS, HTML5 Canvas, JavaScript, WebRTC

ACHIEVEMENTS

- Solved **150+** Data Structures and Algorithms problems on LeetCode, strengthening proficiency in algorithm design, data structures, and complexity analysis. February 2026
- Actively participated in coding contests and competitive programming challenges, strengthening problem-solving abilities, and debugging skills under time constraints. October 2025
- Awarded Runner-up in a university CTF cybersecurity hackathon for effectively solving security challenges under time constraints. February 2024

CERTIFICATES

- Professional Networking for Career Growth / (Link) February 2026
- Building AI Agents with MongoDB/ (Link) August 2025
- Build Generative AI Apps and Solutions by Infosys / (Link) August 2025
- DSA in C++ by CSE Pathshala / (Link) July 2025
- NPTEL Certification – Cloud Computing / (Link) April 2025

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.15*** *August 2023 - Present*
- **Arya Girls Public School** Panipat, Haryana
  PCM; ***Percentage: 74%*** *April 2022 - March 2023*
- **Arya Girls Public School** Panipat, Haryana
  Matriculation; ***Percentage: 92%*** *April 2020 - March 2021*
